Course Objective
This is a short seminar on finance in Europe. Its objective is to bring students, academics and several industry experts together to study financial markets, practice, and institutions in Europe.

Course Content
The course will primarily examine following areas:

1. Current challenges in European markets and Euro zone
2. Political economy of European Union
3. Alternative Investments
4. Investment Banking & Cross Border Mergers and Acquisitions

We will cover the above topics by studying practice and transactions in Europe with a comparison to USA and rest of the world.

This is a half unit course and it is designed for Wharton MBAs. Exceptionally motivated undergraduate students are also welcome to take the course.

Course Format
This course will be taught through cases and lectures on location in London. You will then explore one or several of these topics in more detail in the course project.

Guest Lecturers
Distinguished practitioners will lecture and conduct case discussions for many of the sessions. Our guest lecturers will bring their experience and insights to the classroom. The cases in the seminar are mostly based on the transactions that they personally executed.

Dress Code
Business casual for regular classes.
Venue:
Morgan Stanley
25 Cabot Square
Canary Wharf
London E14 4QA, England
Shakespeare Room

Grades
This course will be graded on our regular letter grade scale or on pass/fail basis. Your final grade will be based on:

a. Attendance and class participation (20%)
b. Course project (80%)

a. Class Attendance and Class Participation
Lecturers in this seminar are experienced senior managers of major financial institutions. You will learn directly from their experiences. You are expected to attend every class and engage in class discussions with the lecturers.

b. Course Project
You need to prepare a project for the course. Projects can be done individually or in a group of two students. The course project is an active learning tool and allows you to apply many concepts that you have learned at the Wharton School in the European context. As such, this course is more like an independent study and some of the learning should come from the preparation of the course project.

The deadline for submission of the final project is April 29th. Further details for the paper and other interim deliverables will be announced in London.

Course Materials

a. Textbooks
There is no required textbook for the course. Students less familiar with financial markets and institutions may use parts of the following texts:

b. Readings
Course readings and references will be posted on Canvas or can be reached on line.

c. Canvas
The course site at Wharton Canvas will contain much course information such as case questions and exhibits, lecture notes and handouts distributed in class, and relevant news articles as well as the most up to date information about the course. All announcements for the course will be on Canvas. As the course progresses, we will add additional reading materials that will be related to the various stages of your course project.

PLEASE MAKE SURE TO CHECK CANVAS REGULARLY FOR COURSE UPDATES.
**Tentative Course Schedule**  
**Final Speakers and Times Subject to Changes**
