

WELCOME TO THE STOCKHOLM SCHOOL OF ECONOMICS

Stockholm School of Economics is one of Europe's leading business schools, with a unique business community network. Our research is internationally recognized and many of our researchers are among the leading figures in their respective fields. We are a private business school founded in 1909 on the initiative of Swedish business leaders. SSE has a good reputation and is consistently ranked by the Financial Times as the number 1 business school in the Nordic and Baltic countries.

All education relies on relevant and current research, and the high quality of SSE's programs can be maintained because of its collaboration with Swedish and international corporations as well as its dedicated professors and researchers. Further evidence of SSE's high quality is the School's EQUIS (European Quality Improvement System) accreditation, which warrants that all degree programs and research are of top international standard.

SSE works with the international business community as well as highly ranked universities and business schools around the world. Every year SSE welcomes about 250 exchange students, many of whom study within the framework of PIM (Partnership in International Management), a network of business schools from all over the world.

SSE is the only Swedish university in CEMS (The Global Alliance of Management Education), a community of leading business schools and multinational corporations. In 2018 the Financial Times ranked the CEMS Master in Management as number 9 in the world. SSE is also the only Nordic representative in ICEDR (International Consortium for Executive Development Research).

CAREER SERVICES

The SSE Career Services offers career and recruitment information, skills training and placement reports.

Investment Banking, Consumer Products, Management Consulting and Finance/Banking are the four main areas attracting SSE students. SSE graduates are hired quickly and many of them accept offers outside of Sweden.

STUDENT ASSOCIATION

The Student Association at the Stockholm School of Economics (SASSE) is unique in that virtually all SSE students are active in the association at some point during their studies. SASSE offers a wide range of clubs and societies covering a variety of interests. Students at SSE are attractive to companies and organizations in the private and public sectors.

The Student Association organizes seminars and meetings to build and nurture relations with interested organizations; a career fair is organized every year in February, for example, and every week three to four company presentations are arranged on campus. Companies like Boston Consulting Group, Goldman Sachs & Co, McKinsey & Co, Google and Procter & Gamble, just to mention a few, regularly recruit from SSE. The companies can also choose to interview at the school.

The Exchange Committee (EC) is part of the Student Association. Every semester they work hard to help our exchange students to feel welcome and to adjust to the Swedish society. The EC arranges trips, visits to museums and other social activities throughout the semester. One of ECs main tasks is to arrange the student buddy program. Each exchange student is assigned a buddy group, who will assist the student on arrival and also in practical matters during the stay at SSE.

You can find more information about the Student Association at www.sasse.se.
