# Wharton Core Curriculum

## Core Curriculum

**Our core curriculum is at the intersection of rigor and flexibility**

Wharton's academic departments have designed a rigorous core curriculum that will teach you the essential skills and concepts that alumni of the Wharton MBA program are expected to have mastered. These core concepts serve as the foundation for upper-level study and will resonate throughout your career.

While the theories taught in the core are indispensable to your academic development, we recognize that you are an individual with a well-developed sense of what it is that you want from your experience. For you, the core curriculum allows for flexibility to accommodate your background, interests, and goals.

**Core Curriculum Worksheet**

**The core curriculum is comprised of two parts:**

### Fixed Core

Taken with your cohort throughout the fall semester of the first year. We will register you for the Fixed Core based upon your cohort assignment.

### Flexible Core

Take courses that best fit your individual needs, backgrounds, and goals. Flexible core can be taken at any time during your MBA career.

\* Can be waived, substituted, or placed

NOTE: If you waive or substitute fixed core classes, you will have a different/shorter cohort experience!

# Terminology

**Waiver** – Exempt from taking the required core class; can be replaced with any Wharton MBA elective to count towards your required 15.0 Wharton course units (CUs).

**Substitution** – Do not need to take the required core class; can take another Wharton upper-level course in the same department.

**Placement** – Do not need to take the required STAT 6130 (1.0 CU core class); can take the STAT 6210 (0.5 CU half-semester version) in its place - which frees up 0.5 CU towards your Wharton electives.

# Process to waive/substitute/place

- **Credentials**
- **Waiver Exam**
- **Placement Exam**

**Credentials:** can result in waivers, substitutions, placement

**Waiver exam:** can result in full waiver of the class or if score is high enough, you may be placed into a substitution or upper-level course

**Placement exam:** can result into placement of accelerated course – STAT 6210
