## Electives & Assessment

The number of credits (i.e. electives) considered to be a full workload for a full time MBA student is 4. Exchange students can choose to take between **3-5 electives** (maximum 2 block week) during the exchange term. Short term students will study **1-2 electives** (maximum 1 block week).

**Assessment:** You will be assessed on a mix of individual projects, examinations, class participation, group assignments and class presentations. Individual grade breakdowns are provided on the course outlines for each course.

**Important Note:** Electives are chosen by students using the Elective Management System. As users of the Elective Management System, students will be able to show the strength of their preference through the number of points they bid and have direct control over whether they are enrolled on a course. This system has 2 bidding rounds and 12 rounds of add/drop. Once the deadline for add/ drop has passed, no changes can be made to the selection of courses that students have made; except in cases where students have approved Extenuating Circumstances (EC) requests.
